

SEED Case Study - Digitally Ready Project

Rachel Glover

Digitally Ready

- JISC funded research project
- Prepare staff and students at the University to live, work and study in a digital world
- Digitally Ready for the future: student employability
- Extra-curricular and in-curricular placements

My role

- Interviews with academic staff, employers and students - SEED, UROP and WRPL
- Blogging: photos and videos
- Write-ups and reports: findings and recommendations
- Dissemination: presentations

Student case studies

My challenges

- RAISE conference - Southampton
- Alt-Conference - Manchester
- Invaluable experience
- Skills development relevant to my degree, my employability and my future!

My lasting impact

- Recommendations to senior staff at the University
- What makes a successful work placement - best practice
- Presenting to an audience that included the Vice Chancellor
- My own professional portfolio

Thank you for listening - questions or comments
