

El Mundo Español

A short Spanish language course from the Institution-Wide Language Programme (IWLP)

What and how will I learn?

Intended for IWLP level 2 (or equivalent) Spanish learners, El Mundo Español brings language learning into the twenty-first century, focusing on current affairs and contemporary issues pertaining to Spain and the rest of the Latin-American world, while strengthening the existing language skills and increasing confidence in language use.

You will have an opportunity to bring your interests into the classroom, developing team project work using a variety of media. Subjects include sport, politics, music, lifestyle and current news from the press and/or television.

Self-evaluation, through the medium of a reflective diary, as well as constructive peer evaluation, will be encouraged in order to deepen your ability to learn independently and successfully.
